Paper : Compt-601

(Web Technology)

(Theory)

Full Marks : 70

Pass Marks : 45%

Time : 3 hours

(PART : B—DESCRIPTIVE)

(Marks : 45)

*The figures in the margin indicate full marks
for the questions*

- 1. (a) Write the structure of a simple HTML page with an example. Explain any six HTML tags.** 3+6=9

Or

- (b) Explain the various elements available for formatting text. What are comments in a web page? What is the role of hr tag?** 5+2+2=9

(2)

2. (a) Explain Dreamweaver interface in detail. What are the advantages of using Dreamweaver? $6+3=9$

Or

- (b) What are style sheets? Illustrate how CSS is created and linked with an example. What are the differences between HTML and CSS? $2+5+2=9$

3. (a) Explain the different image formats. What are the roles of the following?

(i) div tag

(ii) url

(iii) span tag

(iv) anchor tag

$3+6=9$

Or

- (b) Describe how an image or picture is inserted in a web page with example. Explain the various types of list. Design a web page using the various elements of HTML. $2+3+4=9$

4. (a) Write down the steps to create a table in Dreamweaver. Align the table to the right, change the font type and change the background colour. What are the differences between td and tr tags?

$4+3+2=9$

(3)

Or

- (b) Explain the various tags and attributes of a table. Write the HTML codes for creating the following table :

Admission	Name	Subjects		
		Physics	Maths	Chemistry
	Akum	Yes		Yes
	Bendang		Yes	
	Chuba	Yes	Yes	Yes

4+5=9

5. (a) What is the purpose of Forms in HTML?
Describe the various types of Form
Controls used to collect data. 2+7=9

Or

- (b) What are the different types of video format? How is a video file embedded in a web page? List any four online music streaming sites/apps. Differentiate between GET and POST methods.

2+3+2+2=9

(6th Semester)

COMPUTER SCIENCE

Paper : Compt-601

(Web Technology)

(Theory)

(PART : A—OBJECTIVE)

(Marks : 25)

The figures in the margin indicate full marks for the questions

Choose and write the correct answer from the options
provided : $1 \times 10 = 10$

1. HTML describes the web page's structure by using

- (a) constructs
- (b) domain
- (c) mark up
- (d) tools

2. What is the name of the location address of the hypertext documents?

(a) Uniform resource locator

(b) Web server

(c) File

(d) Web address

3. The attributes provided by the tag of the HTML are sources file, width/height and

(a) <alt>

(b) <link>

(c) <design>

(d) <href>

4. The syntax of assigning color to a heading in HTML is

(a) <h1 style="color:blue;">

(b) <h1 style='color:blue';>

(c) <h1 style=color:blue;>

(d) <h1 style="color:blue">

5. Links are defined with <a> tag and the address is specified by the attribute

- (a) hlink
- (b) href
- (c) src
- (d) src-link

6. An external CSS sheet defines style for

- (a) single element
- (b) single HTML page
- (c) multiple elements
- (d) multiple HTML pages

7. div element defines section at a

- (a) page level
- (b) inline level
- (c) block level
- (d) tab level

8. <pre> tag displays content in
 (a) preferred form text
 (b) preformatted text
 (c) pre-linked text
 (d) prepared text format
9. The tag having a value "type=I" displays the list items in
 (a) uppercase alphabets
 (b) lowercase alphabets
 (c) uppercase roman number
 (d) lowercase roman number
10. POST method does not display the submitted form data in the
 (a) page address domain
 (b) page address path
 (c) page address filename
 (d) page address field

(5)

State whether the following statements are *True (T)* or *False (F)* : 1×5=5

11. <sub> tag would be used to display power in expression $(A + B)^2$.
12. In HTML headings are defined from <h1> to <h6>.
13. .com domain represents an educational domain.
14. Cell padding specifies the space between the cell content and its borders.
15. The <nav> element defines a set of navigation links.

Answer in short any *five* of the following questions : 2×5=10

16. What is www?
17. Create a HTML document with a link to facebook.
18. How is an e-mail link added in web page?
19. What is definition list?

(6)

20. What is a hyperlink?

Ans:

(3)

21. What is cell padding?

Ans: It is the space between the border and the content of a cell.

(3 + K)

22. What is frameset?

23. Differentiate between checkboxes and radio buttons.

Ans: A checkbox is used to indicate whether or not something is selected. A radio button is used to indicate which one of several options is selected.

*The figures in the margin indicate full marks
for the questions*

1. (a) Give the structure of a simple HTML page with an example. Explain different types of lists. What is a hyperlink and what are its significances in HTML?

3+3+3=9

L9/560a

(Turn Over)

Or

- (b) Explain any five HTML tags. How is the align attribute used in a Web page? What is the difference between
 and <hr>? $5+2+2=9$

2. (a) Explain Dreamweaver interface in detail. What are the advantages of using Dreamweaver? $6+3=9$

Or

- (b) What are cascading style sheets? Illustrate how CSSs are created and linked with an example. How is an image inserted in Dreamweaver? $2+5+2=9$

3. (a) Explain different image formats. How is a GIF image used as a background? What are <div> tags? What is an anchor and how does it help to navigate a Web page? $2+2+3+2=9$

Or

- (b) Design a Web page using HTML, using the following specifications : $1\times 9=9$

- (i) Attach a style1.css file
- (ii) Fonts for the body in style.css is "book antiqua" and size is 14

- (iii) Background color in style.css is 'green'
- (iv) Include the list with bullets
- (v) Title of the page should be "My First WEBPAGE" and in italics
- (vi) Insert a horizontal rule in the body
- (vii) Insert an image named pic.png
- (viii) Paragraph should be center aligned
- (ix) Hyperlink to a new page to be added
4. (a) Write down the steps to create a table in Dreamweaver. Explain various tags and attributes of a table. 4+5=9

Or

- (b) What are cell spacing and cell padding? Write the HTML codes for creating the following table. Align the table to the right and change the background color :

3+6=9

A		
1	2	3
B		

(4)

5. (a) What is a form and why it is used in a Web page? Explain with an example any three form elements with their attributes. $2+7=9$

Or

- (b) Why is a flash player needed in a Web browser? How is a video file embedded in a Web page using Dreamweaver? What is the difference between downloading a video and streaming a video? How is a youtube.com video added to a Web page? $1+3+2+3=9$

(PART : A—OBJECTIVE)

(Marks : 25)

The figures in the margin indicate full marks for the questions

Put a Tick (✓) mark against the correct answer in the
brackets provided :

$1 \times 10 = 10$

1. Which HTML attribute is used to define inline styles?

(a) Class ()

(b) Style ()

(c) Styles ()

(d) Font ()

2. Which tag creates a check box for a form in HTML?

- (a) <checkbox> ()
- (b) <input type = "checkbox"> ()
- (c) <input = checkbox> ()
- (d) <input checkbox> ()

3. Choose the correct HTML tag for the smallest size heading.

- (a) <heading> ()
- (b) <h6> ()
- (c) <hl> ()
- (d) <head> ()

4. Which tag allows you to add a row in a table?

- (a) <td> and </td> ()
- (b) <cr> and </cr> ()
- (c) <th> and </th> ()
- (d) <tr> and </tr> ()

5. A homepage is

- (a) an index of encyclopaedia articles ()
- (b) where all Internet data are stored ()
- (c) required for access to the Internet ()
- (d) the first page of a Web site ()

6. Which of the following is commonly found on Web pages?

- (a) Internet ()
- (b) Hyperlink ()
- (c) Intranet ()
- (d) All of the above ()

7. Title tag is nested within the _____ tag.

- (a) body ()
- (b) head ()
- (c) list ()
- (d) table ()

8. When creating a Web document, what format is used to express an image's height and width?

- (a) Centimetres ()
- (b) Pixels ()
- (c) Dots per inch ()
- (d) Inches ()

9. Which attribute can be used with BODY tag to set background color green?

- (a) background = "green" ()
- (b) bgcolor = "green" ()
- (c) vlink = "green" ()
- (d) None of the above ()

10. Which of the following is not a pair tag?

- (a) <p> ()
- (b) <u> ()
- (c) <i> ()
- (d) ()

(5)

State whether the following statements are *True (T)* or
False (F) by putting a Tick (✓) mark : 1×5=5

11. With the target attribute, you can define where the linked document will be opened.

(T / F)

12. The alt attribute is used to define an alternate text for an image.

(T / F)

13. A table cannot be nested within another table.

(T / F)

14. The character entity is used to add spaces to text.

(T / F)

15. Web page coded in notepad loads faster than the one created using Dreamweaver.

(T / F)

(6)

Answer in short any five of the following : $2 \times 5 = 10$

16. What is an HTML file?

(7)

17. How do you view HTML source code of a Web page?

(8)

18. How is a comment added in HTML code?

19. What is the difference between internal and external style sheets?

(10)

20. What is <a> tag?

(11)

21. How is a rollover image created in Dreamweaver?

22. What is the difference between div and frameset?

(13)

23. Differentiate between checkboxes and radio buttons.

*The figures in the margin indicate full marks
for the questions*

1. (a) What is HTML? What are different list tags available in HTML? Explain each.

9

Or

- (b) Explain the basic structure of HTML program. Create HTML page for the following features : $4+5=9$

- (i) Title of the page should be "Hornbill Festival"
- (ii) Link colour should be "Green"
- (iii) Heading of pages is "Blue"
- (iv) Picture used in the page is the file "Bird.jpg"
- (v) Pages linked to : programme as "prog.HTML"

2. (a) How to create a CSS file? How to create internal and external style sheets in Dreamweaver? $3+6=9$

Or

- (b) What is Dreamweaver? Explain the major components of Dreamweaver interface. $2+7=9$

3. (a) What are different link tags available in HTML? Explain each. Explain different image formats for the Web. What is inline image? $4+4+1=9$

Or

- (b) What do you mean by FRAME? How can these be created in Web page? How to create layers in HTML? 2+3+4=9

4. (a) Write the steps to insert table in Dreamweaver. Write an HTML code that will display a table of students name, roll number, total marks. 4+5=9

Or

- (b) Write an external cascading style sheet to define the font, font colour, background and foreground colours and various table tag properties. Also use the CSS to design a Web page with tables. 5+4=9

5. (a) How to insert a form in Dreamweaver? Write an HTML code for creating a form, which accepts the birth date from the user in a textbox and displays the day of the week in a message box on the click of a button. 4+5=9

(4)

Or

(b) Explain digital audio file formats.

Explain the following tags used to construct Web form :

3+6=9

(i) FORM

(ii) INPUT

(iii) SELECT

(PART : A—OBJECTIVE)

(Marks : 25)

The figures in the margin indicate full marks for the questions

Put a Tick (✓) mark against the correct answer in the
brackets provided : $1 \times 10 = 10$

1. The entire content for the Web page is enclosed
within _____ tags.

- (a) <BODY> ()
- (b) <head> ()
- (c) <text>d) ()
- (d) <html> ()

2. The tag is used to add _____ to our Web page.

- (a) text ()
- (b) images ()
- (c) clip art pictures ()
- (d) messages ()

3. The tags which require a closed tag are called _____ tags.

- (a) full ()
- (b) unpaired ()
- (c) paired ()
- (d) set ()

4. Which HTML tag produces the biggest heading?

- (a) <h7> ()
- (b) <h9> ()
- (c) <h4> ()
- (d) <h1> ()

5. The attribute used to specify the vertical space around an image is _____.

- (a) vspace ()
- (b) verspace ()
- (c) verticalspace ()
- (d) vertspace ()

6. Lists in HTML can be nested.

- (a) Yes ()
- (b) No ()
- (c) Both (a) and (b) ()
- (d) None of the above ()

14. Using Drawing mode, you can draw tables to

7. In the _____ mode, you create tables by drawing them.

- (a) layout ()
- (b) expanded ()
- (c) standard ()
- (d) None of the above ()

8. The CELLPADDING attribute of <TABLE> tag indicates _____ between border and contents of the cell.
- (a) space ()
 (b) division ()
 (c) thickness ()
 (d) width ()
9. Users can enter information in a Web page and send it to the server using the _____ tag.
- (a) FORM ()
 (b) Submit ()
 (c) Commit ()
 (d) None of the above ()
10. The step involved in communicating between the Web clients and server is
- (a) connection ()
 (b) response ()
 (c) request ()
 (d) close ()

(5)

State whether the following statements are *True (T)* or
False (F) by putting a Tick (\checkmark) mark : $1 \times 5 = 5$

11. The header tag automatically includes a line break.

(T / F)

12. Cellpadding determines the number of pixels between adjacent cells.

(T / F)

13. You can insert dates into your Web page that will automatically be updated whenever you save the page.

(T / F)

14. Using Dreamweaver, it is possible to convert layers to tables and tables to layers.

(T / F)

15. When writing tags with attributes, you do not need to specify values.

(T / F)

Answer in short any five of the following. $2 \times 5 = 10$

16. What is hyperlink? How are they created?

A Hyperlink is a link that connects one document to another. It is also known as a hypertext link.

Hyperlinks can be created by clicking on a word or phrase in a document and then pointing to another document or file.

Hyperlinks can also be created by clicking on an image in a document and then pointing to another document or file.

Hyperlinks can be created by clicking on a word or phrase in a document and then pointing to another document or file.

Hyperlinks can also be created by clicking on an image in a document and then pointing to another document or file.

Hyperlinks can be created by clicking on a word or phrase in a document and then pointing to another document or file.

Hyperlinks can also be created by clicking on an image in a document and then pointing to another document or file.

Hyperlinks can be created by clicking on a word or phrase in a document and then pointing to another document or file.

Hyperlinks can also be created by clicking on an image in a document and then pointing to another document or file.

17. Explain paired and unpaired tags in HTML.

18. What is panels in Dreamweaver?

19. What is the difference between cell spacing and cellpadding?

(10)

20. What is a layer in HTML?

21. How will you create a password field in an HTML form?

(12)

22. List any four common browsers.

23. What are meant by Web page and Web site?

*The figures in the margin indicate full marks
for the questions*

1. What is HTML? Give some of the advantages of HTML. Differentiate between title tag and head tag. Give the HTML code to create a hyperlink to the Web site *www.youtube.com*.

2+3+2+2=9

Or

What are elements and attributes in HTML? Explain various elements available for formatting text.

3+6=9

2. What is a Dreamweaver? What are its advantages? Explain any three elements present in the properties window of a text. How do you insert a frame in Dreamweaver?

$$1+3+3+2=9$$

Or

What is the purpose of using spry menu bar in a Dreamweaver? How do you insert spry menu bar in Dreamweaver? What do you understand by cascading style sheets? What is the difference between block and inline elements? What is a frameset? $2+2+2+2+1=9$

3. Using HTML, design a Web page with the following specification : $1\frac{1}{2} \times 6 = 9$

- (a) Title of document is 'Welcome to HTML Page'
- (b) Heading is of H2 level
- (c) Font for the body is 'Times New Roman' and size is 12
- (d) Create a hyperlink which opens in a new page instead of the parent page
- (e) Include at least three ordered list items
- (f) Insert a Horizontal Rule in your Web page

Or

What are rollover images? How do you create rollover images in Dreamweaver? What is the difference between <div> tag and
 tag? In what way is hyperlink different from e-mail link? $2+3+2+2=9$

4. What are cell spacing and cell padding in a table? Write HTML code for creating the following table. Also add the values Cellspacing = 3 and Cellpadding = 2 in the table : $3+6=9$

Or

Explain various attributes present in the properties window of a table in Dreamweaver. Explain any three attributes present in the properties window of a cell in Dreamweaver. $6+3=9$

5. Explain any three attributes of form element.
Explain the following form elements : $3+6=9$
- (a) Text area
 - (b) Buttons

- (c) Radio button
- (d) Check button
- (e) Text field
- (f) List/Menu

Or

Write the steps to embed an audio file in a Web page using Dreamweaver. What are the differences between SWF and FLV formats? Name some of popular media players used for playing videos on the Web page. How will you add a video from a Web site in your Web page?

2+2+3+2=9

Answer the following questions :

1. What is the role of `<hr>` tag? What are the various attributes it can take? How do you give comments inside your source codes? Display the following text “India is my country” center aligned on the page.

2+2+2+3=9

Or

What are the advantages of HTML? Explain the various elements available for formatting text.

3+6=9

2. Explain what is Dreamweaver. Explain Dreamweaver interface in detail. $2+7=9$

Or

- Explain menus and toolbars in Dreamweaver. Write how to build an external style sheet. $6+3=9$

3. What are the different list tags available in HTML? Explain each. Prepare a sample code to illustrate three types of lists in HTML. $2+7=9$

Or

Write the HTML code to generate a Web page in the format given below. Consider the following while writing the HTML code :

$$1+2+1+1+1+2+1=9$$

- (a) Background colour of the page should be 'Cyan'.
- (b) Text style should be Comic Sans MS and colour should be red.
- (c) Picture used in the page is the file 'activity.jpg'.
- (d) Table should have a border of colour blue.
- (e) Use the concept of nested lists for creating the list given in the Web page with specified bullets.

(f) Pages linked to :

- Indoor Activities as 'in.html'
- Outdoor Activities as 'out.html'

(g) Bottom message should be of size 2.

4. Write how to create a table using HTML.

Write how to create and customize a table
with Dreamweaver. $2+7=9$

Or

Write how to create a registration form using
HTML and style sheets. What are cell spacing
and cell padding in a table? $6+3=9$

5. What is a form in HTML? Write how to create
a form in Dreamweaver. Explain list and
menus. Write how to create vertical and
horizontal menus. $1+2+3+3=9$

Or

What is the difference between GET and
POST method? Write how to embed audio
within a Website. Explain the following
terms : $3+2+4=9$

(a) Radio buttons

(b) Check boxes

(c) MIDI files

(d) Streaming media
